II. 綜合測驗：(30%，每題 2%)

Our lives are full of ads. Some are on TV. Others are in mailboxes. 16 are on the Internet. Most companies are willing to spend a lot of money on advertising to increase the sales of their products. In addition, 17 putting ads, companies can make people 18 aware of their brand names.

An ad which attracts people's attention is a successful one. However, not all ads are true, because people should not put their trust in every ad. For example, if an ad 19 that people using its product can be slim within a week, it will be very likely to be a lie. A picture of a slim lady 20 the product seems quite convincing. However, it can be cheating. So, when an ad attracts attention, people shouldn't trust it completely.
